A YEAR IN REVIEW

2024

STI Testing Returned

STI testing became readily available again. Our STI services encompass a wide range of infections, ensuring quick results and timely treatment.

In the Frame

Brian Spies offered a photography course to our community. After gaining hands-on experience, students showcased their artwork at Buzzsaw Coffee at the year's end.

Menstrual Products

To achieve menstrual equity, we began providing free pads, tampons, and cups to residents of Pennsylvania.

Drag Queen Spectacular

What a memorable night! So many people came out to support the show. We even turned a protestor's actions into a fundraiser!

Awards

- Centre County Favorites - Medical Facility
- Three awards from Global Health & Pharma
- AstraZeneca's Creating Health Access for Next Generation Equity (CHANGE) grant
